Work Role and Responsibilities

- Coordinate and manage the overall implementation of the UNICEF–IIT Bhilai project on solar-based rural water supply systems under JJM 2.0.
- Coordinate field assessments, GP-level campaigns and capacity-building/training activities across project locations.
- Support data collection, validation, monitoring and dashboard development, ensuring accurate and verifiable scheme-level information.
- Coordinate with UNICEF, IIT Bhilai, government departments, field teams, GPs/VWSCs and other stakeholders, including meetings, follow-ups and issue resolution.
- Prepare progress reports, analytical summaries, field documentation, case studies and knowledge outputs while ensuring timely delivery of project activities and outputs.

Name of the position: Field coordinator

Number of Positions: 01

Essential Qualifications: Graduate Degree (minimum three years) in Science or a related field, with a minimum of two (2) years of relevant work experience, preferably including experience of working with IITs or other reputed academic/research institutions. Experience in project coordination, field surveys, data collection, monitoring, operation and maintenance (O&M), or implementation of water supply/solar energy projects will be preferred.

Category: General, OBC-NCL, SC, ST, EWS

Age limit: 45 years

Salary: 50000 (without HRA)

Duration: 11 Months

Place of Work: Assam

Work Role and Responsibilities

- Conduct field visits to selected solar-based water supply schemes.
- Collect and validate scheme-related data with support from the concerned department and local stakeholders.
- Assess the functionality and technical condition of the water supply system.
- Identify technical, operational, O&M and capacity-related gaps.
- Interact with Gram Panchayat, VWSC, Nal Jal Mitra/operators and other village-level stakeholders.
- Provide basic orientation to village stakeholders on solar-based water supply system operation
